Course Reports

2021 Beginners Course

We had 18 new beginner beekeepers this year.

A logistical nightmare with the Covid restrictions in place at the time.

But the training went ahead in small numbers, later than usual, in April and May.

The beginners had 3 sessions, one theory and two practical.

The Apiary was used for training all year and by the end of June all new beekeepers had their first colonies.

Mentors were allocated for support if needed and a WhatsApp group was set up which is proving to be very useful.

All the beginners have been very successful.
